

WORKSHEET

Your Culture's Vision

Why does this program exist?
What are we trying to accomplish?
How do we want to go about accomplishing it?
What makes our program different from other programs? <i>(Before you answer these questions, please understand that many teams will say pithy phrases like 'we're a family,' 'we work hard,' etc. When you answer vision casting questions it must be real, and it must be uniquely yours. Keep digging, keep repeating the question, and keep clarifying.)</i>
Do you feel like you are closer to clearly articulating this team's vision to each other, members of other teams at your school, and your friends and family that are not a part of our team? Can we sum up our culture and what it is we're chasing in a clear and passionate way? Write the summary out.
